The screenshot displays the Cisco Packet Tracer interface. The main workspace shows a network topology with three routers: HQ (1841), BRANCH1 (1841), and BRANCH2 (1841). The HQ router is connected to Switch2 and Switch3, which are in turn connected to PC2 and PC3. BRANCH1 is connected to Switch0 and Switch1, which are connected to PC0 and PC1. BRANCH2 is connected to Switch4 and Switch5, which are connected to PC4 and PC5. The routers are interconnected in a triangular mesh. The interface includes a menu bar (File, Edit, Options, View, Tools, Extensions, Help), a toolbar, and a status bar at the bottom. The status bar shows the time as 00:13:09 and the scenario as Scenario 0. A table at the bottom right shows the Realtime traffic log.
